Sir:

This Preliminary Amendment is being filed together with the U.S. national stage PCT patent application. Please amend the application as follows:

***In the Claims***

Please amend the claims and add new claims as follows:

1. (Original) A box-assembly device, comprising:  
a first locking part having two faces forming a first opening configured to receive an edge of a panel at a corner of a box to be constructed; and  
a second locking part that is integrated with an end of the first locking part into a single body, where the second locking part has two faces forming a second opening configured to receive an edge of another panel at the corner of the box,  
wherein the first and second openings are oriented in the same direction.
2. (Original) The box-assembly device according to claim 1, wherein the first and second locking parts are integrated with each other at substantially a right angle into the single body.
